I know that you are mine, come on, come on get it
And I won't your time, come on, come on and get it
I feel like a canine, come on, come on and get it
Can I eat from your ... come on, come on and get it

I'm in love with your love and I'm coming to get it
You know I can't join you down like ... been it
You know I can't feel the power cause I'm high on my
spirit
You know I'm... for your life and you know that I need it,
yeah, yeah, yeah

Come on get it, come on chase it away
...puttin on a show, I enjoy it, has to put it on for the
buzzers, ... hoho
...I don't wanna feel it, ... come on feel it

I'm in love with your love and I'm coming to get it
You know I can't join you down like ... been it
You know I can't feel the power cause I'm high as spirit
You know I'm... for your life and you know that I need it,
yeah, yeah, yeah.
