You're teachers  
You're power  
You are the final hour  
Your mission is heavy  
It's going to break the levee

You're the leaders of tomorrow  
You can change the course of history like no others  
Have no fear  
May God keep you strong  
You're the leaders we've been waiting  
For so very long  
The future is waiting  
For you to stop hating  
Young people get ready  
You have to stand so steady

You're the leaders of tomorrow  
You can change the course of history like no others  
Have no fear  
May God keep you strong  
You're the leaders we've been waiting for so  
Very long
