I'm the minister of rock n roll
I can heal you
I can save your soul
You better stop foolin' around
I can touch you
I can make it whole
I can bless it so it don't get old
Come on and turn it up...Load

You can call me
You know I will be right there
You can call me
And I will be standing there

I'm the minister of rock n roll
I'll make you freak
and make you lose control

I'm a minister of rock n roll
Highway to heaven and your pot of gold
Come on and join me in the crowd
I'm a fire when you feeling cold
I'll make you freak
and make you lose control
What are you waitin for...Now

You can call me
You know I will be right there
You can call me
And I will be standing there

I'm the minister of rock n roll
I'll make you freak
and make you lose control

I'm the minister of rock n roll
I'll make you freak
and make you lose control

You can call me
You know I will be right there

You can call me

You can call me
You know I will be right there
You can call me

You can call me
You know I will be right there
You can call me

You can call me
You know I will be right there
You can call me

I'm the minister of rock n roll
I'll make you freak
and make you lose control
You can call me

I'm the minister of rock n roll (You know I will be right there)
I'll make you freak
and make you lose control
You can call me

I'm the minister of rock n roll (You know I will be right there)
I'll make you freak
and make you lose control
You can call me

I'm the minister of rock n roll (You know I will be right there)
I'll make you freak
and make you lose control
You can call me

I'm the minister of rock n roll (You know I will be right there)
I'll make you freak
and make you lose control
You can call me

I'm the minister of rock n roll!!!
