Baby, tell me that my love ain't good  
I don't treat you right, I don't do it like I should  
You try to tell me that my heart ain't true  
How would I waste my time doin' all I do for you?  
You ask me, baby, why you hesitate  
That you just can't wait but it takes the time it takes

Spinning round and round and round and  
Spinning round and round and round and  
Spinning round and round over you

You think I dissed you, so you pack your bags  
You just kicked me around, you just threw me out like  
trash  
Now baby, babe, I'm on my knees for you  
Well, I might be late but what you're gonna do?

Spinning round and round and round and  
Spinning round and round and round and  
Spinning round and round over you

Baby, baby, gimme half a chance, I could treat you  
right  
I'll give you good times and romance  
'Cause baby, baby, I'm in love with you, you're my  
superstar  
Tu es mon petit chouchou, yeah

Spinning round and round and round and  
Spinning round and round and round and  
Spinning round and round over you
