Waiting for you to call me  
Waiting for you to tell me you care  
Waiting for you to call me anywhere

I don't care how you show it  
Baby, make me know it

Don't stop (there's still time)  
Put it in a letter  
Call me up  
That is even better  
Precious moments slip away  
We could make love today  
While you wait

Waiting for me to call you  
Waiting for me while time's getting late  
Waiting for me to call you  
For a date

While the world is spinning  
Make a move and give in

Don't stop (there's still time)  
Put it in a letter  
Call me up  
That is even better  
Precious moments slip away  
We could make love today  
While you wait
