Across the street, there's a party goin' on  
Laughing and a dancing, Ooop romancing  
Everyone's invited but me.  
I'm feelin' just as sad as can be  
Across the street.

Across the street, through my window I can see  
There's my best friend Billy, Ooop with my Lilly  
Making out behind my back,  
Like all the other wolves in the pack  
Across the street

Bridge  
Don't you know you're better off  
So say your blessings now  
She'll never be faithful to a single guy  
Oh no no, no no, say it isn't so  
There ain't no way for me to say goodbye

Across the street going to go and get my Lilly,  
Make her feel silly, Ooop knock out Billy  
There's one thing she's got to learn  
I'll love her so she'll never return  
Across the street
