My whole life.  
I've needed someone.  
Who could take me as I am,  
bring out the best in a man.  
This man needs a woman.  
Not just any woman.  
Like a melody so strong,  
she turn my words in a song.  
Well I hear you so,  
like you dont know.  
at the music flows,  
I dont sing no sad songs anymore.

When I say I love you,  
it never ment so much.  
Thought I'd never fall in love,  
so true.  
Now I cant-say I love- without you.

Heeyh, heeey..  
mmm-m-m-m-mm..

My pride to be,  
from this day forward.  
When I look up at the sky,  
all of those clouds will be mine.  
That's my sunshine now,  
That's my moon rising.  
You're the universe to me,  
my only enfinity.  
Well i'll be your soul,  
like you dont know.  
In the world so cold.  
You make me want to live so old.

When I say I love you,  
it never ment so much.  
Thought I'd never fall in love,  
so true.  
Now I cant-say I love- without you.

(Thought I'd never find a love so true)  
Heyh,oh, without you  
(Thought I'd never find a love so true)  
Without you.  
(Thought I'd never find a love so true)  
Oh,baby. Cant live without you.  
(Thought I'd never find a love so true)  
Cant breath without you.

Gonna give you my soul.  
I want you to know,  
got to let my feelings show.  
Girl, we're gonna walk thru heavens door.

When I say I love you,  
it never ment so much.  
Thought I'd never fall in love,  
so true.  
Now I cant-say I love- without you \_\_\_\_\_

Please say the word, I do.  
Cus I cant live my life,without, you \_\_\_\_\_  
I cant live without you,  
I cant breath without you.  
Ooh-oh-oh-oh baby,  
I cant say I love - without - you \_\_\_\_\_
