Why should you sit around and let yourself, go thru.
Here cared for material things, way more than he
cared for you.
I know I dont have much, but a heart to brightning your
day.
You dont have to worry now, cus Im taking his place.

Oh I will never leave you, I'll take better care of you.
You will never have to suffer, once again.
I'll even send roses, to show all my love, for you.
We hold a power of this love inside, our hands.

Here's my number you can call me if you feeling in-
sisure.
Im a real man baby, and you need not look, no more.
I've got a strong hand to hold, and a heart that's
flowing with love.
You dont worry, I wipe the tears from your face.

[chorus]

oooh-oh-oh-oh, baby.
[2xchorus]
