I've been on the outside loving you

Seen from far away

Every day that I live for you

All I do or say

Like the song of the whippoorwill

Beneath a cloudy sky

Your love stands in front of me

While I go floating by

People talk about how they feel

But I never hear

You know they only want to get along

I only want you near

So standing on the outside loving you

Can't be so terribly bad

It's awful easy to get along

With what you've never had
