"I Finally Found"

Visit "[I Finally Found](#)" on MotoLyrics.com

The summer days we touch in heaven
The coming of the deep blue sky
I ride the waves into perfection
Take my hand I'll do it right
When I have you by my side
Every single day brings freedom
There's no worry clouds inside
Yeah I know... I believe...
I finally found that place in me that's higher
I finally know that peacefull perfect day
Keeping a dream I hold on to the fire
You & the sun will shine another way
