God is now here
God is nowhere (6x)

I lost my way in the daylight
I flew out with no wings
So find guidance on Sunday
I found mine with the weak

I should be looking for miricles
But all I'm finding out is pain
I should be searching for miricles
But now I'm dying in vain

I've been chosen a healer
Standing faith from the saint
I've been down with the meager
'Cause they can't be explained away

I should be looking for miricles
But all I'm finding out is pain
I should be searching for miricles
But now I'm dying in vain

God is now here
God is nowhere(over and over until end of song)

I should be looking for miricles
But all I'm finding out is pain
I should be searching for miricles
But now I'm dying in vain
