Parasite comes on again
Withered out with nothing left
Forgiven hurt blood in the veins
Broken wing the one who waits

Like an open wound
I'm in need
Like forever swoon
I just can't bleed
(we all deserve a life)

Get with you, I need more suffering
Splint for two, born to choke up everything
Shread this hell, I would give you everything
Sworn to tell, I am now the host of hate

Like an open wound
I'm in need
Like forever swoon
I just can't bleed

Like an open wound
I'm in need
Like forever swoon
I just can't bleed
Like an open wound
I'm in need
Like forever swoon
I just can't bleed
