"Me And Baby Jane"

Visit "[Me And Baby Jane](#)" on MotoLyrics.com

Janie was my first love we shared the pains of
school she offered me a balance for awhile and she
gave me innocents
I seemed like less a fool she always had a line to make
me smile but we separated early not an easy thing too
do sometime seem tomorrow'd never come but we
couldn't keep together for all the times we tried we had
a sad reunion tonight Oh how we laughed
together trapped in the grapes of wrath together yes
and we loved each other
Me and Baby Jane but now she's gone forever
Lord help me stay together see her vacant eyes and a
needle in a vain
Oh baby, baby, Baby Jane I see the purple mountains
I'm lost and in between a place that I know well and in a
bad dream
Others stand beside me too late to try and find excuses
in the face of being blind but now she is awaiting for the
feeling of the cold to free her from the nightmare of
old she was a part of me silently alone and too far down
to draw the line Oh how we laughed together trapped in
the grapes of wrath together yes and we loved each
other
Me and Baby Jane but now she's gone forever
Lord help me stay together
I see her in the sky and early morning rain
Oh baby, baby, Baby Jane
