I feel it, you feel it
That this was meant to be.
I know it, you know it
That you were made for me.
We came tonight, not any longer
Day by day we're getting stronger.
I want it, you want it
It's what the people want to see.

We're like Romeo and Juliet
Fact leaves fate to find us.
Like the tallest mountain on the widest sea
Nothing's big enough to hide us.
When we make love its overwhelming
I just touch the heavens
You're an angel, you're an angel

I said this world, this world.
Could leave us anyday
But my love for you, it will never go away.
And I don't wanna go to sleep
Cuz' you are like a dream
For every night I see you there,
And I swear you are the answer
You're an angel, you're an angel, you're an angel.

So we take it and each moment that I pause
I see it, you see it,
What we have is made of gold
We're so filled with meaning,
Nothing can make us shallow.
So I hold it, and you hold it
The promise of tomorrow.

When we make love its overwhelming
I just touch the heavens.
You're an angel, you're an angel

And I said this world, this world
Could leave us anyday
But my love for you, it will never go away.
And I don't wanna go to sleep

Cuz' you are like a dream
For every night I see you there,
And I swear you are the answer
You're an angel, you're an angel, you're an angel.

I don't need three wishes
Oh I just need one
For us to never be finished
For us to never be numb
When they say it's over
We'll just say I love you
And when they say it's finished
We'll just keep on building.

And I said this world, this world
Could leave us anyday
But my love for you, it will never go away.
And I don't wanna go to sleep
Cuz' you are like a dream
For every night I see you there,
And I swear you are the answer (x2)

You're an angel, you're an angel, you're an angel.

Yes you are. You're an angel
