"Comatised"

Visit "[Comatised](#)" on MotoLyrics.com

Two days today
Don't carry much weight
But all the stars are here
And they've made it quite clear
That I am alive
So very alive

Please tread gently
Ever so friendly
I'm back from a temperate sea
Capsize when you comatise
When you capsize, you're comatised
By a love that never should have died

I was up before the dawn
Like a child on Christmas morn
And all the blues were in his sky
Waiting to impress you
So alive
So very alive

Please tread gently
Ever so friendly
I'm back from a temperate sea
Capsize when you comatise
When you capsize, you're comatised
By a love that never should have died

Capsize when you comatise
When ya hit the tide on the other side

Please tread gently
By a love that never should have died
