I was fearless, flying, loveless
Nowhere to nowhere
Falling earthbound
I never looked down
Grasping the feeling
Did someone hear me say

I never needed a hero
I never needed a hero
Tell me who sent you
Tell me how they knew
My heartbeat was fading
My body was needing
A hero
Some kinda hero

I built these walls
So high, so tall
No one could get in
You kept climbing
You kept on fighting
Always believing

I never needed a hero
I never needed a hero
Tell me who sent you
Tell me how they knew
My heartbeat was fading
My body was leaving
Tell me who sent you
To come to the rescue
A hero
Some kinda hero
Some kinda hero
Some kinda hero

Suddenly, we're face to face
There's nowhere left to hide
As brick by brick
You tear me down
Uncover what's inside
Did someone hear me say

I needed a hero
I needed a hero

I never needed a hero
I never needed a hero
Tell me who sent you
Tell me how they knew
That my heartbeat was fading
My body was needing
Tell me who sent you
To come to the rescue

I needed a hero
I needed a hero
Some kinda hero
Some kinda hero
Some kinda hero

I was fearless, flying, loveless,
Nowhere to nowhere
