[Verse 1]

I've never seen  
Such a face before  
Tell me what's wrong  
Maybe I can help you tonight  
I sure that it's nothing  
A kiss can not heal  
Come let me show you I'm real

Let somebody love you  
Let somebody care  
Take the weight off your shoulders  
When it's too much to bare  
Let somebody save you  
When you got no place to run  
Hold out  
Reach out for me  
An I'll be the one

[Verse 2]

Don't be afraid  
Breathe  
Gently surrender your heart  
One step at a time  
Baby lean on me  
Lean on me  
Trust in me baby  
It's love that you feel  
Come let me show you I'm real

Let somebody love you  
Let somebody care  
Take the weight off your shoulders  
When it's too much to bare  
Let somebody save you

When you got no place to run  
Hold out  
Reach out for me  
An I'll be the one

[Bridge]

Let somebody love you  
for all the right reasons  
Let somebody love you  
And leave all your troubles behind  
Maybe we could be more than just friends  
Somehow  
Some way  
I'm gonna make you want me to stay

Let somebody love you  
Let somebody care  
Take the weight off your shoulders  
When it's too much to bare  
Let somebody save you  
When you got no place to run  
Hold out  
Reach out for me  
An I'll be the one
