Oceans and the distance
Can't keep us apart
Though you're far away
I still know who you are

A flicker in the darkness
Our love is like a spark
You're the perfect ending love song
You're the strings on my guitar

And I'll stand beside you
As long as I'm alive
As long as I am breathing
I'll make things alright

[Chorus]

And I'll stand beside you
As long as I'm alive
You'll always be my baby
You know that you and I

You and I got something that's so rare
Nothing comes close, nothing can compare
They can say, they can do what they wanna
Cause we get stronger like rain and thunder

Every time they try to tear our love apart
We get tired of their look, love you have my heart
They can say, they can do what they wanna
Cause we get stronger like rain and thunder

Our love is like a movement
And I've become so bright
Without your love behind me
I don't think I'd survive

You made me so happy
And you're the reason why
I keep on climbing higher
You keep my hope alive

[Chorus]

We're stronger than yesterday
Love things grow I'm here to stay
I'll never walk away
From what we have

Every day and night, when I close my eyes
I say a prayer cause I got you here in my life
Your love is sent from above
Like rain and thunder

You and I got something that's so rare
Nothing comes close, nothing can compare
They can say, they can do what they wanna
Cause we get stronger like rain and thunder

Every time they try to tear our love apart
We get tired of their look, love you have my heart
They can say, they can do what they wanna
Cause we get stronger like rain and thunder
