My body aches,  
Tryin to go back in time but there's no way  
I close my eyes,  
But when I do all I'm seeing is his face  
It's hard to breathe  
Kinda feel like the walls are closing in  
Was just a touch,  
So tell me why I still feel him on my skin  
And if you see him...

Tell him I love him, tell him I love him,  
Tell him I love him say,  
Tell him I love him, tell him I love him,  
Tell him I love him say  
Tell him I love him, tell him I love him,  
Tell him I love him say  
He Left me to die, at the Scene of the Crime  
Can't believe I let it happen this way  
I had it planned right in front of my face  
Stole my heart then he walked away  
And he left me to die at the Scene of the crime..

This body heat,  
Sending a fire burning on the floor  
Got close enough,  
To give me a fever never felt before,  
I close my eyes,  
Imagine him taking anything he wants,  
So criminal,  
Though it's magic how he disappeared, he's gone  
If anybody sees him...

Tell him I love him, tell him I love him,  
Tell him I love him say,  
Tell him I love him, tell him I love him,  
Tell him I love him say  
Tell him I love him, tell him I love him,  
Tell him I love him say  
He Left me to die, at the Scene of the Crime  
Can't believe I let it happen this way  
I had it planned right in front of my face  
Stole my heart then he walked away

And he left me to die at the Scene of the crime..  
At the scene of the crime!

Yeah He did! Oh-Oh!  
He left me to die at the scene of the crime!

Tell him I love him, tell him I love him,  
Tell him I love him say,  
Tell him I love him, tell him I love him,  
Tell him I love him say  
Tell him I love him, tell him I love him,  
Tell him I love him say  
Can't believe I let it happen this way  
I had it planned right in front of my eyes  
Stole my heart then he walked away  
And he left me to die at the Scene of the crime..  
At the scene of the crime!

Can't believe I let it happen tonight  
I let him take it right in front of my eyes,  
Stole my heart that controlled our lives  
Then he left me to die at the Scene of the crime  
At the Scene of the Crime.. The Scene of the Crime!
