You were like the crash of thunder  
Echo'ed through my darkest nights  
You awaken all my senses,  
Made me feel alive  
Even if we try to fight it  
We know that the sparks will fly  
Cause in the end where just two  
People, Destined to collide  
Like stone hearts  
And hand grenades  
You and I, Are not the same  
There is nothing i would change  
Where stone hearts  
And hand grenades

All my lonely  
You blow it all away  
And when you need me  
I will keep you safe  
After all the dust has settled  
We lift eachother of the ground  
I carry you a million miles  
I'll never let you down (No)  
Theres alot of strength in weakness  
Theres alot of truth in lies  
But in the end where just  
Two people, Destined to collide

Like stone hearts  
And hand grenades  
You and I, Are not the same  
There is nothing i would change  
Where stone hearts  
And hand grenades

All my lonely  
You blow it all away  
And when you need me  
I will keep you safe

All my lonely  
You blow it all away

(away ,away,away, yeah yeah )  
Like stone hearts  
And hand grenades  
You and I, Are not the same..  
There is nothing i would change  
Stone hearts  
And hand grenades

Stone hearts  
And hand grenades  
All my lonely  
You blow it all away  
When you need me  
I will keep you safe

All my lonely  
You blow it all away  
When you need me (when you need me)  
I will keep you safe  
(I will you safe)

All my lonley  
You blow it all away  
When you need me  
I will keep you safe

All my lonley  
You blow it all away  
When you need me.
