Unlearn Me

Stare into this mirror
the woman looking back is not familiar
who has she become, she's a stranger
this cannot be me, was a smart good girl before I fell in
love
Taking down these pictures
they are glossy moments of the way we used to be
they are phony lies get them out of here
Memories haunting me
don't represent the place I know

Chorus:

Just no love it's all me
no more us, finally breathing
just please unlearn me
please unlearn me, please unlearn me.

Ohhh

I'm burning up these letters
the ones you gave when you said I was the only girl
now I know the truth I knew just what to do
I gave you the dues
gonna start my life again just loving me
deleting your phone number
I won't be tempted to let myself slip up again
not my lover you're not my friend
I won't let you in, you're useless
this is how..

Chorus:

Just no love it's all me
no more us, finally breathing
just please unlearn me
please unlearn me, please unlearn me.

2 x

Ah, yes unlearn me, ah, yes unlearn me
Oo I wanna be free, ah, yes unlearn me,
Ah, yes unlearn me, ah, yes unlearn me
Oo I wanna be free, ah, yes unlearn me

[2 x Chorus:]

Please unlearn me, ohh
