Verse 1:

I found myself,
waiting at the door step for you,
but you never came,
then i saw your reflection in my mirror,
but i knew it had to be a dream.

Bridge:

i found a place one summers day,
i knew that every moment was true,
then i found a familiar face,
and it was yooouuuuuu,

Chorus:

When dreams await,

you find them close,
sometimes love is just the most,
i needed your affection,
but you never gave,
you know where to find me,
when dreams await.

Verse 1 again x1

chorus x2

You will love me forever, won't yooouuuuuu?
