Out on the highway a lot of pretty girls go by  
But none have been right  
Up until today I would never settle down  
But you keep coming around

And your love is a miracle  
It's spiritual  
Got here just in time  
Your love is a miracle  
It's visible  
Even to a heart that's blind like mine

Out in the wild life, a lot of people telling lies  
Lookin' right in your eyes'  
And up until tonight, I was always on the prowl  
(But) now I'm settlin' down

And your love is a miracle  
It's spiritual  
Got here just in time  
Your love is a miracle  
It's visible  
Even to a heart that's blind like mine

Anyone can see what you're doing to me  
And everyone can see that you're everything I see

'Cause your love is a miracle  
it's spiritual  
Stands the test of time  
Your love is a miracle  
It's visible  
Even to a heart that's blind like mine
