You can tell everyone love is over and done
You can pack all your things and go
You can lie to yourself and say there's nothing else
But there's something I think you should know

(And) It's never really over even though you say we're
through
You may be over me but can't you see
It's not over if I'm not over you

There's not much I can do if it's over for you
I'll just wish you the best when you leave
But you've played such a part in my life and in my heart
You'll always be a part of me

(And) It's never really over even though you say we're
through
You may be over me but can't you see
It's not over if I'm not over you

You may be over me but can't you see
It's not over if I'm not over you
