Dream with me tonight.
Tonight and ev'ry night,
wherever you may chance to be.
we'er together, if we dream the same sweet dream.
And though we'er far apart,
Keep me in your heart
And dream with me.

The kiss we never dared
We'll dare in dreaming
The love we never shared
Can still have meaning.
If you only dream a magic dream
With me tonight

Tonight and ev'ry night
Wherever you may chance to be
Close your lovely eyes and dream with me.

The kiss we never dared
We'll dare in dreaming
The love we never shared
Can still have meaning.
If you only dream a magic dream
With me tonight

Tonight and ev'ry night
Wherever you may chance to be
Close your lovely eyes and dream with me.
