

Leonardo's Bride "Alaska"

Visit "[Alaska](#)" on MotoLyrics.com

To build a fire isn't always easy
In a storm but you can try
Just when I was thinking what's an eskimo to do
Something in the fog says I can find my way with you
The walls are white
The room feels bigger than is
On into the night
The wind will be whistling a tune
Just when I was thinking what's an eskimo to do
Something in the fog says I can find my way with you
Sun in my alaska

Sun in my alaska
Time to go outside
Time to read the writing on the wall
Facing up to this
I kiss the light
Colder than a polar bear this much is true
Just when I was thinking what's an eskimo to do
Something in the fog says I can find my way with you
