I wish I was a little clearer,
I'm slipping into the slipstream,
I feel just like a falling angel,
I dreamed last night I was lost at sea.

CHORUS

Don't fall for me,
Cause I'm already down
I'm already down
I've made friends with a Boa Constrictor,
I've lost my feet in the undertow,
And the mirror's just like a matrioshka doll,
and the big black clouds are out on show.

CHORUS

I don't understand *2
Now I'm screaming underwater,
And morpheus won't let me sleep.
The meloncholy dawn birds sing to me,
i'm getting used to their company.

CHORIS

(fade to end)
