Deep in your mind  
There is another side  
A morbid truth  
When I can not hide  
Unimaginable gore  
Was your past time high  
To hear people scream  
To watch them die

Return back to the burial site  
Face your dreams upon this night  
Severed limbs not far away  
Spirit past you now obey

Images of the forgotten past  
Ypur first life revealed at last  
Now you' ll find to your surprise  
All the corpses you left behind

A place you feel  
You' ve been to before  
Where life would turn  
Rigth into gore  
You dig deep down  
Through the years of decay  
The truth is revealed  
You found your way.
