We're not supposed to be alone
Why couldn't we get along
Seems like pride always get's in the way
Can't do love, too much pain
I keep replaying the day you

Walk right out the door
And never accounted for my heart
But we both end up with scars

Nooo

Don't say I'm sorry
Try to tell me you love me
Don't get emotional
I already let it go

Cause you got me too deep
But I ain't losin sleep
One thing that you should know
I already let it go

I picture you waking up
Thinkin bout it then making up
But nothing at all
Not even a single call

I waited for days
Days turned to weeks
I'll be okay I won't let it break me down

Nooo nooo

But I guess in love and war
You win, you lose, you forget why you fought
But we both end up with scars

Nooo
(2x)
Don't say I'm sorry
Try to tell me you love me

Don't get emotional
I already let it go

Cause you got me too deep
But I ain't losin sleep
One thing that you should know
I already let it go

(2x)
Cause you got me too deep
But I ain't losin sleep
One thing that you should know
I already let it go
