To Live, Do you want to... Live!? Do you wanna live? Do you wanna live? Do you want to live? I know this girl with a needle in her arm She chases dragons to appease the track upon her soul The red dragon is walking circles through her soul I can't take it anymore She cooked the shit twice today to shut out all the pain I can't take it anymore Take this needle through vein Take it through my vein All I feel is pain But bloodstains All I feel is pain There is nothing left The tracks you have they tell the tale Of what your hell on earth would feel Let the needle fly away remove it from your life Do you wanna live? Do you wanna live? Do you wanna live? Or do you want to die? I can't take it anymore I can't take it anymore. Take this needle through vein Take it through my vein There is nothing left All I feel is pain All I feel is pain But bloodstains When it all comes down, your the one thing in your life Everything, is crying on me, it's gone, I've been gone, your gone And you make the world that we hate inside I can't take it anymore Take this needle through my vein I can't take it anymore Take it through my vein All I feel is pain All I feel is pain There is nothing left But bloodstains Why does everyone have answers, (problems) Everybody has answers (problems) Problems (x18)
