"Rip The Heart Out Of Me"

I woke up this morning and knew Is it me or do you feel
my pain? That the world would test me, come unglued
This world makes my blood boil again You make it look
easy You rip the heart out of me Rip the heart out of me
You rip the heart out of me Rip the heart out of me
Control and deceive me You rip the heart out of me Rip
the heart out of me I've tried everything to please you
It's so hard to crawl out of this ditch Gone out of my
way like a fool What makes me break down like a bitch?
You rip the heart out of me You make it look easy Rip
the heart out of me You rip the heart out of me You rip
the heart out of me Rip the heart out of me Control and
deceive me Rip the heart out of me You rip the heart
out of me You make it look easy Rip the heart out of me
Rip the heart out of me Control and deceive me You rip
the heart out of me You rip the heart out of me Rip the
heart out of me
