There's so many people dying

You complain about your situation

What about me

Half the world wouldn't know what it's like to lose your
seed

Maybe you can understand

I cannot reach that soul

You're probably watching over us

Know that i think of you

Its killing me

The guilt has lasted years still cry

It was all planned out

Why was i last to know

Don't you trust in me

The tables cold it's too late

To make up for these mistakes

Maybe you can understand

I cannot reach that soul

You're probably watching over us

Know that i think of you

Its killing me

If i would have known

I can't say what i would have done

If you could forgive

I'd like to rest with you someday

I cannot reach that soul

You're probably watching over us

Know that i think of you

Its killing me

If i would have known

I can't say what i would have done

If you could forgive

I'd like to rest with you someday
