I wanted to know  
Who you really are  
I needed the chance  
To stitch up my scars

I'm closer to you  
Than I was in the start  
So dive right in  
And tear me apart

I'm trapped  
And we can't get along  
I thought that I was strong  
We are so unstable

And then  
I'm strung out from your touch  
But I won't give you up  
We are so unstable

I wanted to learn  
About the dark side of you  
You bring me down  
Like a bottle of pills  
I hate the way  
That you make me feel  
I keep coming back  
I never get you

I'm trapped  
And we can't get along  
I thought that I was strong  
We are so unstable

And then  
I'm strung out from your touch  
But I won't give you up  
We are so unstable

You're so unstable [x2]  
We're so unstable [x2]

I'm trapped  
And we can't get along  
I thought that I was strong  
We are so unstable

And then  
I'm strung out from your touch  
But I won't give you up  
We are so unstable

I'm trapped  
And we can't get along  
I thought that I was strong  
We are so unstable

And then  
I'm strung out from your touch  
But I won't give you up  
We are so unstable

You're so unstable  
I'm so unstable  
We're so unstable  
I'm so unstable
