You've got control of me  
Some strange kind of hold on me  
You know every move I make  
Cause you make me move

Hold me in your arms  
A little longer  
Till my confidence becomes  
A little stronger

You're the only one  
Who wakes me up  
And takes me out  
To where I wanna be

Cause you've got control of me  
Some strange kind of hold on me  
You know every move I make  
Cause you make me move  
(Make me move)

I never thought about it  
But I never really doubted  
The fact that I depend on you  
To shape my destiny

To tell the truth  
I just can't fake it  
I love you, girl but  
If we're ever gonna make it  
You've got to learn to lean on me  
Like I lean on you

You've got control of me  
Some strange kind of hold on me  
You know every move I make  
Cause you make me move

You've got control of me
