Its been so long i've never said a thing
So scared of what she thinks and what the future brings
If I speak up now, will I be losing out?
Cause I don't wanna jeopardize the time we have
But i've been going mad with all the time thats passed
So tonights the night
I finally speak my mind
She opens up the door we've made plans to eat
I better start this speech before we even leave
Because if I don't, I know I wont
I've got some things to tell you but there hard to say
And its been that way since I ever saw your face
I look her in the eyes, but shes not surprised

I start to get the feeling that its just not meant to be I start to get the feeling that its just not meant to be

I'll finish what im saying but its hard as hell Cause I can already tell that its not going well But i'll push on through, yeah i'm falling for you I can't believe im here and that it took so long But after 4 love song something feels so wrong She must have known, and now i'll have to go

I start to get the feeling that its just not meant to be I start to get the feeling that its just not meant to be

I start to get the feeling that its just not meant to be I start to get the feeling that its just not meant to be And even though I see it I hold on to hope Because she hasn't spoken but when she does i'll know The silence screams, my uncertainties She doesn't say a word but leans in for a hug And its almost enough to know its one way love And then she pulls away, and she starts to say

I don't wanna say it but its just not meant to be I don't wanna say it but its just not meant to be I don't wanna say it but its just not meant to be I don't wanna say it but its just not meant to be I don't wanna say it but its just not meant to be I don't wanna say it but its just not meant to be I don't wanna say it but its just not meant to be I don't wanna say it but its just not meant to be I don't wanna say it but its just not meant to be It's not meant to be

```
I don't wanna say it but its just not meant to be
It's not meant to be
I don't wanna say it but its just not meant to be
I don't wanna say it but its just not meant to be
I don't wanna say it but its just not meant to be
I don't wanna say it but its just not meant to be
```
