"Who Will Be Our Superhero"

Visit "[Who Will Be Our Superhero](#)" on MotoLyrics.com

It's not enough
To say we know we messed up
And then just walk away
So sorry for yesterday
It just won't do
To say we never knew
Things would be this way
But help is on the way

I've heard that line before
And it was ignored
Can anybody hear me
What are we waiting for

Who will be our superhero
When things go wrong
You'll save the day
Who will be our superhero
We need you now
To fly us to a better place

Fly us to a better place

It's just not fair
To say that we care
And then just leave behind
Problems we can't deny
It's just not right
To say our goodbyes
When it's not time for that
When will we face the facts

Hope's around the corner
Don't let it fade
Everybody's waiting
Something needs to change

Who will be our superhero
When things go wrong,
You'll save the day
Who will be our superhero

We need you now
To fly us to a better place...

Where we can live in harmony
That's where I want to be
It's what everybody needs
A place...
Where there's no hatred in our hearts
I know its not too far
But only you can take me

Who will be our superhero
When things go wrong,
You'll save the day
Who will be our superhero
We need you now
To fly us to a better place

Fly us to a better place

Fly us to a better place

Fly us to a better place

Fly us to a better Place

Who will be our superhero (hmm)
