Hello babe, sure has been a long time  
Into my arms now, bring me satisfaction  
Come on honey, make me scream  
Take me for everthing I bring  
Let's get it on, let's get it on  
I wanna feel every part of you

She's gonna take me higher  
Take me higher where  
She says we'll be alright (2x)

The deeper I dive into you  
The more hooked I get on you  
My body aches to feel your touch  
Of you I could never get too much  
I'm a poor boy dying to burn in your life  
I'm a lost one grabbin' on to your love girl

She's gonna take me higher  
Take me higher where  
She says we'll be alright (2x)

I...I...I'm gonna show  
You precisely wath i mean  
Aie...Aie...Aie... make it hot  
Til I need to pull the trigger

She's gonna take me higher  
Take me higher where  
She says we'll be alright (4x)
