"Another Future"

Visit "[Another Future](#)" on MotoLyrics.com

you don't need the end of the story
you don't care, you live for today
you don't fight for queen or for country
you don't want to carry the blame

you know me I have no children
I know you have others to feed
what will be left over for them
are we now providing their needs?

can you see another future
in the things we do today
can you see another future
in the things we do today?

I thought too, tomorrow would never
come to be - I couldn't see how
me or you - would be in the future
now I see the future is you

can you see another future
in the things we do today
can you see another future
que ser? what will be?

one day I will have to answer
for every single decision made
you and me, we can't run any faster
we will see the part that we played

you need me and I need you brother
we can't be the same on our own
you and me are stronger together
this menagerie is our only home

can you see another future
in the things we do today?
can you see another future?
