In the night, when it's dark  
I will stand, dressed in black  
Astral world  
I'm the dream in your sleep  
I'm the tear when you weep  
And I can hypnotise you with bionic eyes  
You can find me around, Astral world  
You can see me around, Astral world  
I'm the fear in your mind  
I'm the way you can't find  
But I can ease your pain  
With my synthetic brain  
You can find me around, Astral world  
You can see me around  
But it'll take some time until you realise

The day you'll see the light  
I will stand dressed in white  
And I'll give you the key  
To the Eternity  
Astral world is around  
But it took some time until you realise  
Astral world.
