Flying on the way back to your planet
The tube left in the old days before sunset

Now you're feeling good you're so proud of yourself
Look at your Moon the airships are away
Yes you're on the way back to your planet

Drifting through the light-years yours a dreaming
A new scene, the galaxies like on the screen

Now you're feeling good you're so proud of yourself
Look at your Moon the airships are away
Yes you're on the way back to your planet
Now you're feeling good you're so proud of yourself
Look at your Moon the airships are away
Yes you're on the way back to your planet

Drifting through the light-years yours a dreaming
A new scene, the galaxies like on the screen

Now you're feeling good you're so proud of yourself
Look at your Moon the airships are away
Yes you're on the way back to your planet

Flying on the way back to your planet
Flying on the way back to your planet
Flying on the way back to your planet
