Can one continue on forever?  
Until the end of these our times  
Always the same way and never  
Try hard to see or try to find  
Again the reasons are together  
Why we're here, now is the time

We're making contact (\*)  
All over the world  
We're making contact  
Only say the world  
We're making contact  
All over the world  
We're making contact  
All over  
We're making contact

And then the time arrives we're blinded  
As a light shines in our eyes  
Only then we are reminded  
By a fire in the sky

(\*) repeat 3 times

We're making contact (all over)  
We're making contact (all over)  
We're making contact (only say the world)  
We're making contact (all over)  
We're making contact (try to be one)  
We're making contact ...
