Every night I loop beyond the sky  
Searching for an answer why or why  
I'm getting vi-vibration  
I'm getting se-sensation  
I can see a woman dressed in black

Dancing to the music of the stars  
As she comes from Jupiter or Mars  
Want to hold, want to kiss  
Want to touch I can't resist  
Take just fantasy your way

Cosmic feeling, coming trough the light  
Who is that a woman in black? (2)

Loosing out control wild and wild  
Every thing as just little child  
She as set my high emotion  
She as set my high emotion  
She can just fantasy our way

Cosmic feeling, coming trough the light  
Who is that a woman in black? (2)

We want only it was that or why?  
No more joy she was just driming  
Lonely days, lonely night,  
Searching trough see the light  
Sleeping on you only of the stars
