made up my mind to be alone
tho' friends may come and friends may go
we can choose when to be free
or enjoy other's company
if we want to we can let go

don't talk of love
let's just be friends

let's carry on just as we are
it's worked out fine for us so far
leave the experimental....
let's not get sentimental
when we are together or we're apart

don't talk of love
let's just be friends

let's make no plans to go wrong
just wait for what may come along
we could be in for a surprise

don't talk of love
let's just be friends
