Another day is gone, and you're away
Another journey to believe

Until the stars are falling I gotta stay
Another day in outer world
Another day is gone and I'm alone
Another mission not to fear

Until the moon is shining I gotta stay
But I don't wanna let you go...

In my soul there's a world I never let you go,
You and I won't let it end
I don't wanna be afraid

I gotta stay, and I don't want to let you go

Blue... Endless blue is for you to believe
You and I won't let it end
I don't wanna be afraid
I gotta stay, and I don't want to let you go

Another day is gone, and you're away
Another journey to believe

Until the stars are falling I gotta stay
Another day in outer world

In my soul there's a world I never let you go,
You and I won't let it end
I don't wanna be afraid
I gotta stay, and I don't want to let you go

Blue... Endless blue is for you to believe
Blue... Endless Blue solitude to believe
Blue... Endless blue is for you to believe
Blue... Endless Blue solitude to believe
