Somewhere in the distance
In another world
Somewhere in the distance
In the outer world
There is a man who lives out of time
Sort of a man not of our kind

King of the universe

You can feel his presence
Everywhere you go
You can feel his presence
Anywhere you go
It's about time that you should know
The one who never ever did show

King of the universe

Walking on a rainbow
You don't realize
Talking to a rainbow
Can't believe your eyes
It's not a dream your leaving the ground
What happens is real you have just found

King of the universe

Feeling breathless, all those vessels
What a big sensation
Universe is endless
Humans are so small
Universe is endless
Earth is just a ball
Millions of miles just make him smile
That doesn't phase him that's for a child

King of the universe

Somewhere in the distance
In another world
Somewhere in the distance

It's another world
There is a man who lives out of time
Sort of a man not of our kind
