Just a man, his life's a competition  
Light speed junky (2)  
Never slow down or going steady  
Light speed junky (2)  
Need no starter to get him ready  
Light speed junky (2)  
In the air, into the sea  
Nothing can stop his motion  
Light speed junky

When it comes down to speed no one's faster  
Light speed junky (2)  
'Cause when he flies his machine is a monster  
Light speed junky (2)  
Need no breaks, he's never satisfied  
In the air, into the sea  
Nothing can stop his motion  
He's like the devil in a subhuman race  
Nobody's ever seen such crazy madness  
He's on the way up somewhere close to the sun  
A second later right there back to the ground  
Keep off the way, don't say you've never been told  
Beware, and better keep your eyes on the road  
People say his mother was no human  
Light speed junky (2)  
And his father was a traffic warden  
Light speed junky (2)  
As a child he was known as speedy
