Go futurize, be a guy in disguise
A satanic panic on the rise
Wake up your mind, leave your planet behind
Telegraphic traffic in the tide
Ooh! Radiate - Oh! Let it shake
Ooh! Radiate - Oh! Let it penetrate

Go televise from the top of your mind
Automatic static in the sky
Take a ride let your body unwind
A mechanic panic in the night
Ooh! Radiate - Oh! Let it shake
Ooh! Radiate - Oh! Let it penetrate

Atomic angel in a cosmic show
She gets you going then she tells you no
An interplanetary rodeo
She gets you coming back to fight - Red light!

Red light, get up hey! Atomic show
Red light, wake up it's a rodeo
Ooh! Radiate

Go mechanized gettin' ready to fly
An erratic static in your eyes
Go get it right on a meteorite
A volcanic panic is in sight
Ooh! Radiate - Oh! Let it shake
Ooh! Radiate - Oh! Let it penetrate.
