I take in all the world that is around me  
And no one's life ever can hide from or escape me  
Awaken to see I am watching  
Mistaken if you don't believe

I really can't exist without the knowledge  
Of what's gone on without me past friendly college  
Awaken to see I am watching  
Mistaken if you don't believe

Where could you be now  
I've got to see  
If you're wondering how  
It's come to be  
Push a button now  
So quietly  
I take every move down instantly  
Every day that I will be  
Instant replay  
I'm gonna see  
Where could be now
