Well I am bored of hearing you  
Shouting, screaming all the time.  
Your do or die state of mind  
It just makes you go so blind,  
Fighting all the time  
Loosing everytime.  
Stop the war,  
Let cease fire now.  
War never brings no good,  
You're right I give up,  
Stop the daily war  
And hope the others will do  
Just the same.  
Well I am tired of seeing you,  
When you're just following the pack,

And try to save your little self  
Not minding anybody else;  
Cheating all the time  
Getting fucked everytime  
Well I am sad of watching you  
Cause you're wasting all your time,  
Banging your head against the walls  
And then go crying when it hurts.  
Making all the time,  
The same mistakes in fact.
