I know I'm blinded
'Cause all I do is look through
All the feelings that I have for you
And if I only knew
That every minute with you
Would be a chance to become close

And when I feel your heartbeat next to me
I know it can't be wrong with you

But my friends tell me I love you
Baby, what am I supposed to do
Believe me
Baby, when I tell you it's true
I know I need you
'Cause everyday, I'm thinking of you
Believe me
Baby, when I tell you it's true

Now I've had time to
To dream of nothing but you
And a dream is something that just won't do
How can I make you see
Just believe in me
Oh boy, trust in love and you can be free

I know 'cause I believe
That you belong to me

But my friends tell me I love you
Baby, what am I supposed to do
Believe me
Baby, when I tell you it's true
I know I need you
'Cause everyday, I'm thinking of you
Believe me
Baby, when I tell you it's true

There was a time
When I felt that nothing
Could come between us

Now I know
That I need you
For all time

But my friends tell me I love you
Baby, what am I supposed to do
Believe me
Baby, when I tell you it's true
I know I need you
'Cause everyday, I'm thinking of you
Believe me
Baby, when I tell you

My friends tell me I love you
Baby, what am I supposed to do
Believe me
Baby, when I tell you it's true
I know I need you
'Cause everyday, I'm thinking of you
Believe me
Baby, when I tell you it's true

Baby, when I tell you it's true
Baby, when I tell you it's true
